

## IT POLICY

Nizam College has an extensive IT policy covering desktop systems, Internet connection, laptop, Wi-Fi, installation of software including open-source apps, licensed apps, antivirus apps, purchase of hardware, allocation of systems to various departments, printers, email accounts operating systems.

Desktop systems are purchased every year based on the requirements of various departments. Hardware parts of existing systems are updated by replacing—with ones as per the curriculum need

Internet connection has been provided to all the departments for faculty and students. Wi-Fi routers has been placed access entire college premises. Google form is floated to faculty and students for getting the access to Wi-Fi.

A laptop is provided to each department for presentation and discussion among the faculty members during monthly departmental meetings.

Nizam Colleges encourages and motivates the hardware administrations to install and use open source software's in clouding operating systems.

Licensed software is not purchased by the college as its parent institute i.e., Osmania University facilities all licensed software's.

It is ensured that anti-virus is installed in every system and there is a firewall that that blocks irrelevant sites. For, email id Nizam College & Osmania University domains faculty & students have to fill the form & email will be generated.
